## **European Medical Director (Clinical Development) 2 Roles, Neurology/Psychiatry & Cardiology**

Excellent Remuneration on Offer  
Berkshire, UK

### **The Company**

Our client is one of the world's largest and most comprehensive drug development services company. They have the people, global resources and problem-solving culture to respond to pharmaceutical and biotechnology clients' toughest drug development challenges. They have continued to deliver consistent growth and with these two roles are looking to strengthen the European arm of the business.

### **The Role**

Reporting to the US, the European Medical Director will have a specialism in either Neurology/Psychiatry or Cardiology. You will evaluate and prioritise study opportunities, within your therapeutic area, as well as assisting in the feasibility assessment relating to specific study projects. You will help develop protocols, NDA preparations and attend investigator meetings, conventions, and provide a stand-alone clinical consultation service. In this role you will play a key part in developing strategies to enhance the company's visibility and position in the market place. In return you will receive a very generous benefits package.

### **Applicant Profile**

Medically qualified, GMC registered, preferably with postgraduate training or equivalent experience in the required therapeutic area. A good track record within the pharmaceutical industry in clinical research/development is desired.

We look forward to hearing from you.
