

## **UK Medical Director** **High growth specialty pharmaceutical company**

### **M4 Corridor**

Our client develops, manufactures and markets its own pharmaceutical portfolio within a niche specialist care market. These brands are already leaders in their current markets and there exists considerable potential to extend into a range of additional indications.

In order to realise this potential, a significant expansion of the global organisation is underway and the company is currently establishing affiliates in a number of major international markets, including the UK.

Reporting to the UK General Manager, the Medical Director will have an important leadership role in building a medical organisation capable of facilitating and supporting this business growth. This will include responsibility for reviewing and analysing potential markets, generating data and establishing relationships with KOLs. You will drive UK medical strategy across current and new therapeutic areas, managing a small team across Medical Affairs, Regulatory Affairs and Safety.

You may already be a Medical Director seeking a new challenge – or be working in a senior medical affairs position and ready for promotion. You will be a GMC registered pharmaceutical physician, with a good understanding of the UK specialist care market; ideally including some exposure to NICE/SMC processes and market access challenges. Tangible evidence of proactive contribution to business growth and of influencing medical, clinical and regulatory viewpoints will be important.

Your experience is likely to have been gained predominantly in a medico-marketing context, but some exposure to clinical development, pharmacovigilance, drug safety and regulatory affairs issues will also be advantageous.

You will have well-developed medical leadership, strategic thinking and delivery skills, and a high level of commercial focus and drive.

**This role offers considerable scope to make an impact and to contribute to the success of the business at an important stage in the company's evolution. For a confidential discussion, please call Ruth Stone or Caroline Petit on 01727 857755. To apply, please send your CV, including details of your current remuneration, to Ruth at [rs@barrettwebb.com](mailto:rs@barrettwebb.com) Please quote reference BW586.**
