

Job Opportunity

We have an exciting opportunity for a Medical Advisor to join an International Healthcare Company, specialising in Immunology and Haematology.

You will be responsible for regulatory activity and pharmacovigilance within the UK, mainly dealing with MHRA regulations. You will also be responsible for providing clinical information to medical personnel, training and supporting the commercial team and ABPI compliance.

Candidates will be qualified as a Medical Practitioner, Clinical Scientist or Pharmacist and have worked within the field of Immunology and /or haematology. You will also have experience in regulatory affairs and pharmacovigilance.

If you are interested in the role please contact:
